LETTER OF TESTIMONY

FOR

MVP'S DR. VASANTRAO PAWAR MEDICAL COLLEGE & HOSPITAL,  
NASHIK

I, Dr. Chirag A. Sadiwala, have done POST-GRADUATION (M.S.) in General Surgery from the above mentioned Institution, from 2009 to 2012. I am ~~my experience~~ not attached to the Institute in any capacity currently, & have no disclosures to make.

My experience at this Institute was enriching & fulfilling, which I will describe as under:

- ① CLINICAL WORK: There was good patient volume, & we were exposed to a wide variety of cases. Surgical hands-on training began early, & through Residency we performed plenty of surgeries, both as Assistants & primary surgeons. There was good exposure to Allied Super-Speciality branches as well.
- ② ACADEMICS: There was rigorous focus on academics, both in form of Theory & Practicals. Regular lectures, case presentations, mock exams & Viva voce were held throughout the Residency. There was a good balance between ACADEMIC & CLINICAL training, which prepared us for both exams, & actual clinical practise.

P.T.O.

Continued...

○ FACULTY: When I reflect back on my residency, I observe that apart from the rigorous training & teaching of the Theory & Practice of Surgery, the Faculty also deeply instilled in us senses of Morality & Ethics, which I carry forward to this day.

○ INFRASTRUCTURE: The Hospital, Wards & OT's were well-equipped & up-to-date.

The Hostel facilities were comfortable. The College is so located that we were exposed to populations from both, CITY (NASHIK) & its surrounding villages. This gave us a unique insight into medical care in both URBAN & RURAL INDIA.

To summarize, I have nothing but Gratitude to express to this Institution, & it's Dept. of General Surgery, for laying a strong foundation on which we could build a career performing the wonderful art of Surgery.

And especially to Dr. Sudhir Bhanur, an able leader & endite surgeon, who was, & will always remain, my teacher, my guide, my mentor.

Thank you.

Yours sincerely,

Chirag Sadiwala

(DR. CHIRAG SADIWALA)
